1. Accessible Parking Overview – Emily Sander, Director of Consumer & Brand Marketing BraunAbility

BraunAbility is the world's leading manufacturer of wheelchair accessible vehicles and wheelchair lifts. Founded nearly 50 years ago in Winamac, Indiana by Ralph Braun, the company has grown into the most well-known and trusted name in the mobility industry, bringing independence to millions of individuals across the world.

This year, BraunAbility is launching the Drive for Inclusion, a movement to help the world understand the difficulties people with mobility challenges face and to drive change for a more mobility inclusive world. Starting in May, the focus is on inclusion through access, specifically accessible parking. Launch events will happen in select major markets across the country including Indianapolis. We are excited to share next steps with Fishers and spark visible change within our local communities.
