Members Absent: Selina Stoller

Others in attendance were: Dale Davis, Kay Prange, Kristen Sprague

a. NPR-19-3 Creative Sign Package for Master Station

Masterstation LLC requests approval of a creative sign package for their building at 11634 Maple Street

The request was presented by Dale Davis, Planner III. Masterstation requests to utilize a creative sign package to respond to the architecture of their building and the building's location. The applicant has requested to move the upper wall sign from the top of the building to between the second and third floor on the west façade and also requests that the south facing sign is to be illuminated. The code requires that the upper wall signs be at the top of the building and that signs without right-of-way frontage are not to be illuminated. All signs will be reverse channel lighting. Staff recommends approval.

Mr. Johnson asked if the color could be changed for ground level lighting. Mr. Davis noted that usually white light is used in reverse channel lighting.

Mr. Harling asked for a Motion. Ms. Bowman made a Motion to approve NPR-19-3. The Motion was seconded by Mr. Johnson and approved, 3-0.

As there was no other business, the meeting concluded at 5:05 p.m.

Respectfully Submitted by:

Kay Prange, Recording Secretary
