Hello Barry

I have taken time to evaluate the information you sent over regarding the proposed facility in Fishers. Given you information provide we were able to calculate the estimated direct spending and economic impact for the 41 events included in the spreadsheet.

If the complex were to host the 41 events annually, the community would capture annually an estimated \$28 million dollars in Direct Spending and \$112 Million in Economic Impact. These estimates are based on the data included in the spreadsheet and a economic impact study conducted by the Hamilton County Sports Authority.

If you need any additional information or further clarification, please contact me.

Thanks!
